

MASTER OF SCIENCE IN ENGINEERING

The Engineering programs at Minnesota State University, Mankato offer a Master of Science in Engineering degree program. In consultation with their committee, students design their own program of study by choosing courses from Electrical Engineering, Mechanical Engineering, Civil Engineering, Physics, Mathematics, and Computer Science. The program is designed to serve engineers in business and industry who want to continue their formal engineering education at the postgraduate level; new engineering graduates who want to increase their depth of knowledge and develop an area of specialization; and, those graduates from other related science disciplines who want to broaden their backgrounds by pursuing engineering studies at the graduate level.
