

General Education Committee
Approved Minutes
February 22, 2006

Present: Ron Nickerson, Gretta Handke, Jim Rife, Kellian Clink

I. We discussed the GECCIG reports, pulling out recommendations regarding the process, the teachers, student outcomes.

II. We threw around ideas about using next year to focus on General Education and Analysis. Looking at the recommendations of all the GECCIG makes it clear that students work needs to reflect more work on analysis, whether it's in comp, social sciences, diversity, global, etc. We tossed around ideas about the mandatory fall meetings and having a GE at each college one and then hosting mandatory meetings for the other categories. This was in the context of figuring out what to ask Dr. Olson for. Also, we need to get CETL to sponsor session on General Education teaching and course design.

III. KC agreed to do a first draft of an uberdocument pulling together the recommendations from all the extant GECCIG reports.
