

# Subscribing to the Stutt-L Google Group

## 1 Subscription

You may subscribe to Stutt-L in one of two ways; either using an email address of your choice, or with a Google/Gmail account.

### 1.1 Using a standard email address

You may subscribe to and participate in list discussions using any standard email account by sending an empty message to [Stutt-L+subscribe@googlegroups.com](mailto:Stutt-L+subscribe@googlegroups.com). Your request to join will be added to a queue for the list moderators to approve. Once your subscription request is processed, you will receive an automated confirmation email message.

You may start a new list thread by sending a message to [Stutt-L@googlegroups.com](mailto:Stutt-L@googlegroups.com). To respond to a list post, simply use the Reply function in your email program.

Unsubscribe from the list at any time by sending a blank message to [Stutt-L+unsubscribe@googlegroups.com](mailto:Stutt-L+unsubscribe@googlegroups.com).

### 1.2 Subscribing with a Google account

Additional functionality is available to you by signing up using a Google/Gmail account. In addition to posting and responding to list posts normally via email, you may view list threads and archives of past postings in a convenient web interface. You also have the ability to set a variety of options, such as message delivery format and frequency.

To subscribe using a Google account, navigate to <http://groups.google.com/group/stutt-l> and follow the on-screen instructions to sign in to your Google/Gmail account, and request to join the Stutt-L group. Once your subscription request is processed by the list moderators, you will receive an automated confirmation email message at your Gmail address.

Ordinary list posting and replying are still available in your normal email program, when you have subscribed with this method. You may start a new list thread by sending a message to [Stutt-L@googlegroups.com](mailto:Stutt-L@googlegroups.com), or use your email program's Reply function to respond to a list post. However, you may opt to constrain your Stutt-L participation solely within the Google Groups web interface at <http://groups.google.com/group/stutt-l>.
