FOR IMMEDIATE RELEASE

Minnesota State Mankato Sophomore Awarded Internship at Dartmouth

Minnesota State sophomore Alex Salazar (Biology, ‘18) was recently awarded an internship at Dartmouth College. Salazar will be participating in Ecology, Evolution, Ecosystems & Society (EEES). According to their website, EEES is “a diverse community of scholars who conduct innovative, interdisciplinary research in the natural sciences and environmental studies, including ecology, evolution, anthropology, environmental economics, geography and earth sciences. Our program balances the study of traditional paradigms and theory with the practical applications of science that are necessary in the Anthropocene.”

Salazar is currently involved in the Honors Program at Minnesota State Mankato.

Salazar utilized resources in the Honors Program, Office of University Fellowships and the Biology Program in his pursuit of this award.
