

## IPESL Technology Support Questionnaire

**Congratulations on winning an IPESL Grant!** Now what?

If this fear is hitting you because you have some anxiety over an IPESL related technology need, please let's hear your need.

This is a survey to see what Technology Support you need, to achieve successful completion of your IPESL grant. We will make every attempt to satisfy your technology support needs, whether it's website space, D2L training/questions, Podcasting, Vodcasting, multimedia needs, data conversion needs or specific software support. We will try to establish group courses, but failing that, we will work one-on-one with you.
