

New Electronic Resources (Since December)

ASCE Journals: searchable and browsable collection of full image articles published in American Society of Civil Engineering Journals

ARTstor: over 300,000 digital images from curated art collections covering multiple disciplines beyond arts and humanities

Chemical Abstracts (SciFinder Scholar): includes substructure module

ComDisDome: citations and abstracts to materials about Communication Disorders

Euromonitor: full text market research reports on international consumer, industrial and service markets that include market size data, company shares, brand shares and forecasts

General Reference Center Gold: covers general interest magazine articles, some full text

Humanities/Social Science Index Retrospective: retrospective indexes for these disciplines, covering 1907-1984

Reader's Guide Retrospective: covers 1890-1982

Technology Research Database: a package of databases that includes some of our previous subscriptions and several new ones (see table below for full list)

Still coming: Children's Literature Comprehensive Database

New Interface: CSA

CSA, also known as Cambridge Scientific Abstracts, has completely changed the search interface for their databases. The new interface affects the following library resources:

- AgeLine
- Biological Abstracts
- Biology Digest
- BioOne Abstracts and Indexes
- Computer Abstracts
- Conference Papers
- ERIC
- GeoRef and GeoRef In Process
- Linguistics and Language Behavior Abstracts
- LISA: Library and Information Science Abstracts
- MEDLINE (via CSA)
- Plant Science
- PsycINFO
- RILM Abstracts of Music Literature
- Risk Abstracts
- Social Services Abstracts
- Technology Research Database
 - Aerospace & High Technology Database
 - ANTE: Abstracts in New Technologies and Engineering
 - Civil Engineering Abstracts
 - Computer & Information Systems Abstracts
 - Earthquake Engineering Abstracts
 - Electronics & Communication Abstracts
 - Engineering Research Database
 - Environmental Engineering Abstracts
 - Materials Research Database with METADEX
 - Mechanical & Transportation Engineering Abstracts
 - Mechanical Engineering Abstracts
 - Solid State & Superconductivity Abstracts
- TOXLINE
- Worldwide Political Science Abstracts

New Electronic Resources (Since July)

ACM Digital Library: full text and full image access to ACM (Association for Computer Machinery) journals, magazines, and proceedings

ANTE: Abstracts in New Technologies and Engineering

Civil Engineering Abstracts

Communication and Mass Media Complete: includes some full text

Earthquake Engineering Abstracts

Environmental Engineering Abstracts

Environmental Issues and Policy Index

Euclid: searchable and browsable collection of full image articles in the Euclid Prime, Euclid Select, and Institute of Mathematical Statistics packages (29 of 35 journals in Euclid are available to us)

Philosopher's Index

xreferplus: full text reference books online, such as dictionaries (including bilingual dictionaries and a crossword solver), encyclopedias, quotation books, and thesauri, covering many subjects:

art	literature
biography	medicine
business	music
conversions (distances, volumes, weights)	philosophy
food	psychology
geography	religion
history	science
language (idioms, rhymes, usage)	social sciences
law	technology
