

Maverick Forensics

Debate Across the Curriculum:

Invite members of the MSU-Mankato Forensic Program to come to your classes and present an audience centered debate on the topic of your choice.

- Contact Leah White at least 3 weeks prior to when you would like the debate to occur.
- At this time be prepared to provide the debaters with a debate topic, as well as 2-3 short readings that would introduce them to the major issues related to the topic. Keep in mind members of the forensic program come from all different majors, so the debates may need to stay focused on basic issues depending on the expertise of the students involved.
- Be willing to meet (in person or via e-mail) with one of the debaters to make sure they are preparing a debate that meets your classroom needs.
