TIAA-CREF WILL BE CONDUCTING A FINANCIAL EDUCATION WEBINAR AT MINNESOTA STATE COLLEGES AND UNIVERSITIES.

INTRODUCING TIAA-CREF LIFECYCLE FUNDS: A STREAMLINED APPROACH TO RETIREMENT INVESTING

MnSCU has now made available a series of Lifecycle Funds targeted to your expected year of retirement. For investors who prefer an approach to retirement investing that won't require complicated decision-making, the TIAA-CREF Lifecycle funds offer a convenient solution. TIAA-CREF Lifecycle funds are based on your target retirement date. These funds follow a carefully planned asset allocation strategy that continually adapts to balance the pursuit of growth with the desire to minimize volatility as retirement nears.

This Seminar will:

1. Provide key reasons why you may benefit from investing in a Lifecycle Fund
2. Describe the "Glidepath", or the funds' gradual, carefully controlled transition away from equities and to fixed-income investments
3. Provide an overview of the broad diversification and asset classes that makeup the funds
