

Enriching Learning Environments

TO-GO – Training Your Way

Testimonials

“Thank you Jeff, Marni and Matt for a week of technology learning and fun!”

“This was a fabulous week! I have been intimidated by technology in the past. I was exposed to so much that my head is swimming with ideas now. I really felt comfortable asking questions and I appreciate sharing with the other participants and getting their ideas and feedback.”

“The instructors are doing an excellent job. They present the material in a concise and sequential way that makes incorporating technology into all aspects of the teaching and learning process. This is a valuable resource that will never run out of material.”

ELE To-Go Details

DESIRE2LEARN OVERVIEW

Learn how to effectively use Desire2Learn to engage your students with the use of profiles, news, discussions, dropbox, quizzes and grades

CLASSROOM TECHNOLOGY

Learn how the technology in the classroom can get students to interact with each other and you

TECHNOLOGY TOOLS

Take a peek and try out many inexpensive or free software tools that can enhance the student learning experience
