

Carry Forward of Pre-1999 General Education Courses

For DARS considerations, pre-1999 General Education courses that are now in Categories 1A and 2-6 will be counted for students using 1999 and later catalogs. Any general education courses approved after 1999 will only be used in the catalog years (and later) in which they were approved. Activity courses from pre-1999 have been approved for Category 11 and some individual courses in categories 7-10 have also been approved and will carry forward based on the individual approvals. All these agreements will be reflected in the DARS report.

Any pre-1999 course that was designated as a Cultural Diversity core or related course, but not as a Category 7 or 8 General Education course, will NOT be counted as meeting General Education Category 7 or 8 except by appeal. The appeal process will be the same as followed for all requests to have a non-general education MSU course count for general education. This action overturns the recommendations from the May 4, 2001 meeting of the General Education Sub-Committee.
