Program Description:

Computer Information Technology (CIT) in its broadest sense encompasses all aspects of computing technology. CIT, as an academic discipline, focuses on meeting the needs of users within an organizational and societal context through the election, creation, application, integration and administration of computing technologies. The aim is to provide CIT graduates with the skills and knowledge to take on appropriate professional positions in Information Technology upon graduation and grow into leadership positions or pursue research or graduate studies in the field. The CIT program also has five minors.

Admission Requirements:

Admission to the CIT major is required before the student is permitted to take 300- and 400-level courses. Requirements for admission to IT program are:

- A minimum of 32 earned semester credits
- Completion of MATH 121 or MATH 181 with a grade of C or better
- Completion of ENG 101 with a grade of C or better
- Completion of IT 210, and IT 214 with a grade of C or better and a GPA of 2.5 in these courses (or their equivalents).

Applications for admission are available in the College Advising Center, Trafton C-125.

Advising:

You are expected to meet with your advisor on a regular basis to ensure courses are taken in an order that will lead to successful completion of the degree.

A complete listing of program faculty, policies, and course descriptions is available in the undergraduate bulletin.
