Aviation
College of Education
Department of Aviation
328 Armstrong Hall • 507-389-6116

Chair: Joel Stephenson
Nihad Daidzic, Joel Patrick McKinzie, Thomas Peterson

Aviation Program Mission. The mission of the Minnesota State Mankato Aviation program is to prepare principled professional aviation practitioners for responsible positions in the air transportation industry, including airline operations and management, corporate aviation, airport management, and government operations. The program aims to equip students to thrive in the rapidly changing and highly competitive fields of aviation and motivate them to engage in life long learning.

Advising. Aviation students will be assigned an aviation faculty advisor following an initial or transfer orientation session. Faculty advising appointments may be scheduled through Linda Winans, Administrative Assistant in the Aviation Department Office. Mymique Baxter, College of Education Student Relations Coordinator, is also available for general education, cultural diversity, major admission and program completion (application for graduation) advisement. Students may make appointments through the College of Education Academic Advisement Office (Armstrong Hall 117). On-site airport advising is also available and hours will be posted.

Admission to Major. Coordinator for Admission to Major, Mymique Baxter, 117 Armstrong Hall.

All students must submit an unofficial transcript or DARS report (available at the Campus Hub).

Students must meet the following requirements:
- a minimum of 32 earned semester credit hours.
- a minimum cumulative GPA of 2.00.

Students may enroll in 100 and 200 aviation coursework prior to admission to major.

Policies/Information

Flight Lab. Flight lab completion requires evaluation by aviation faculty. Flight costs are determined on an hourly basis for aircraft and flight instruction. To obtain FAA certifications requires FAA exams which may require a fee.

Transfer of college credit and credit for certificates and/or ratings. The Minnesota State Mankato Department of Aviation bases its flight education philosophy in a four-year university degree. Consequently, students who have obtained flight certificates/ratings without earned college credit may not have satisfied the academic and flight requirements for the aviation major. Students must demonstrate that they have received the full breadth and depth of knowledge, skills, abilities, and attitudes consistent with an education received at Minnesota State Mankato. Once enrolled at Minnesota State Mankato, students are expected to complete all subsequent flight training within Minnesota State Mankato’s aviation program.

Transfer credits. To satisfy aviation curriculum requirements, students with pilot certificates and ratings earned with college credit through a Council on Aviation Accreditation (CAA) accredited university may transfer those credits without demonstration of proficiency. College credits obtained through a non CAA accredited institution will be reviewed by the Department of Aviation to ensure the issuing institution follows policies and practices consistent with CAA accreditation standards. In the event credits do not transfer, students may be required to follow Credit for Experience procedures.

Prior Experience. Students entering Minnesota State Mankato with completed FAA certificates must register for and complete the requirements for the applicable ground school and flight lab courses. Prior flight experience will be evaluated by the faculty and may result in advanced standing in flight labs. Students are responsible for aircraft rental required for the evaluation.

GPA Policy. Admission to College of Education, 2.0 cumulative GPA.

P/N Grading Policy. Only elective and general education courses may be taken P/N, unless offered P/N only.

AVIATION BS

General Education (Choose 4 credits)
ECON 207 Business Statistics (4)

Major Common Core
AVIA 101 Introduction into Aeronautics (3)
AVIA 150 Private Pilot (4)
AVIA 334 Airline Management (4)
AVIA 437 Aviation Safety (4)
AVIA 445 Aviation Human Factors (3)

Major Emphasis: Professional Flight Concentration
AVIA 151 Private Pilot Flight Lab (3)
AVIA 171 Multi-Engine Flight Lab (1)
AVIA 201 Theory of Flight (3)
AVIA 240 Instrument Pilot (3)
AVIA 241 Instrument Pilot Flight Lab (3)
AVIA 250 Commercial Pilot (3)
AVIA 251 Commercial Pilot Flight Lab (3)
AVIA 340 Flight Operations (3)
AVIA 360 Flight Instructor (3)
AVIA 361 Initial CFI-Airplane-Multiengine Flt Lab (1)
AVIA 362 Add-on CFI-A-Single Engine Flt Lab (1)
AVIA 363 CFI-Instrument Airplane (CFI-I) Flight Lab (1)
AVIA 436 Advanced Flight Operations (3)
AVIA 440 Regional Airline Operations (3)
AVIA 450 Professional Pilot Theory (3)
AVIA 451 Professional Pilot Flight Lab (2)

Restricted Electives (Choose 15 credits)
AVIA 202 Principles of Air Navigation (3)

AVIA 497 Aviation Internship (1-12)
AVIA 499 Individual Study in Aviation (1-6)

Major Emphasis: Aeronautics Concentration

A plan of study must be completed and approved by the Aviation Department for this emphasis. Choose 48 credit(s):
AVIA 151 Private Pilot Flight Lab (3)
AVIA 171 Multi-Engine Flight Lab (1)
AVIA 201 Theory of Flight (3)
AVIA 202 Principles of Air Navigation (3)
AVIA 240 Instrument Pilot (3)
AVIA 241 Instrument Pilot Flight Lab (3)
AVIA 250 Commercial Pilot (3)
AVIA 251 Commercial Pilot Flight Lab (3)
AVIA 333 Airline Operations (3)
AVIA 340 Flight Operations (3)
AVIA 436 Advanced Flight Operations (3)
AVIA 442 Fundamentals of Air Traffic Control (3)
AVIA 443 Airline Dispatch (3)
AVIA 445 Aviation Human Factors (3)

Required Minor: None.

AERONAUTICS MINOR

An Aeronautics is minor in Aviation is obtained after completing 16 required aviation core courses and 10 aviation electives. The minor provides fundamentals of the Aeronautical and Aviation sciences that may result in the candidate obtaining pilot certificates provided the required flight training is completed and all practical tests passed.

Core
AVIA 101 Introduction into Aeronautics (3)
AVIA 150 Private Pilot (4)
AVIA 437 Aviation Safety (4)

Required General Education (Choose 3 credits)
AVIA 201 Theory of Flight (3)

Elective
A plan of study must be completed and approved by the Aviation Department.

Restricted Electives (Choose 9 credits)
AVIA 151 Private Pilot Flight Lab (3)
AVIA 171 Multi-Engine Flight Lab (1)
AVIA 240 Instrument Pilot (3)
AVIA 241 Instrument Pilot Flight Lab (3)
AVIA 250 Commercial Pilot (3)
AVIA 251 Commercial Pilot Flight Lab (3)
AVIA 333 Airline Operations (3)
AVIA 340 Flight Operations (3)
AVIA 436 Advanced Flight Operations (3)

PRIVATE FLIGHT MINOR

Core
AVIA 101 Introduction into Aeronautics (3)
AVIA 150 Private Pilot (4)
AVIA 437 Aviation Safety (4)

Restricted Electives (Choose 9 credits)
AVIA 151 Private Pilot Flight Lab (3)
AVIA 171 Multi-Engine Flight Lab (1)
AVIA 240 Instrument Pilot (3)
AVIA 241 Instrument Pilot Flight Lab (3)
AVIA 250 Commercial Pilot (3)
AVIA 251 Commercial Pilot Flight Lab (3)
AVIA 333 Airline Operations (3)
AVIA 340 Flight Operations (3)
AVIA 436 Advanced Flight Operations (3)

PROFESSIONAL FLIGHT MINOR

Core
AVIA 101 Introduction into Aeronautics (3)
AVIA 150 Private Pilot (4)
AVIA 437 Aviation Safety (4)

Required Elective (Choose 22 credits)
AVIA 151 Private Pilot Flight Lab (3)
AVIA 171 Multi-Engine Flight Lab (1)
AVIA 240 Instrument Pilot (3)
AVIA 241 Instrument Pilot Flight Lab (3)
AVIA 250 Commercial Pilot (3)

**COURSE DESCRIPTIONS**

**AVIA 101 (3) Introduction into Aeronautics**

A study of how aviation fits into our modern world, relation to business, and contribution to the economy. Study of aviation as a visible alternative in transportation.

Fall, Spring

**AVIA 150 (4) Private Pilot**

A study of basic aeronautical knowledge including principals of flight, aerodynamics, aviation regulations, weather, visual and instrument navigation, and emergencies. The course meets, but is not limited to, FAR part 61.105 (a, 1-6). Satisfactory completion of this course may result in an endorsement for the FAA Private Pilot written exam.

Fall, Spring

**AVIA 151 (3) Private Pilot Flight Lab**

Provides beginning flight student with the in-flight requirements needed to obtain the FAA Private Pilot’s Certificate.

Fall, Spring

**AVIA 152 (3) Private Pilot Helicopter Flight Lab**

Provides initial flight student with the in-flight training requirements needed to obtain the FAA private Pilot Helicopter Certificate.

On-Demand

**AVIA 171 (1) Multi-Engine Flight Lab**

Prepares advanced flight student with the in-flight requirements needed to obtain the FAA Multi-Engine Pilot rating.

Pre: AVIA 151, or equivalent

Fall, Spring

**AVIA 201 (3) Theory of Flight**

A study of physics and aerodynamic principals of flight and propulsion systems. The nature of aerodynamic forces are explained. Flight principals of lighter-than-air, airplane, glider, rotocraft and powered lift are covered in detail.

Pre: AVIA 101, AVIA 150

Fall, Spring

**AVIA 202 (3) Principles of Air Navigation**

A study of fundamental air navigation principles and how it is applied to flight. Pilots and dead reckoning. Great circle navigation. Charts and conformal projects. Celestial navigation systems and their operations and use.

Pre: AVIA 150

Spring

**AVIA 205 (3) Introduction to Air Transportation**

Discusses various segments of the aviation industry, their associations, their regulators, and their impact on the economy. The course uses an historical perspective as well as current industry events to enlighten students to the many career opportunities in aviation today.

Fall, Spring

**AVIA 240 (3) Instrument Pilot**

A study of the aeronautical knowledge including aviation regulations, weather, instrument navigation, and instrument emergencies. The course meets, but is not limited to, FAR part 61.65 (b, 1-4). Satisfactory completion of this course may result in an endorsement for the FAA Instrument Pilot written exam.

Pre: AVIA 150, or equivalent

Fall, Spring

**AVIA 241 (3) Instrument Pilot Flight Lab**

Prepares advanced flight students with the in-flight requirements needed to obtain the FAA Instrument Pilot rating.

Pre: AVIA 151, or equivalent

Fall, Spring

**AVIA 242 (3) Instrument Pilot Helicopter Flight Lab**

Prepares advanced flight students with the in-flight requirements needed to obtain the FAA Instrument Pilot Helicopter rating.

Pre: AVIA 152

On-Demand

**AVIA 250 (3) Commercial Pilot**

A study of advanced aeronautical knowledge, including aerodynamics, aviation regulations, weather, and instrument navigation, and emergencies. The course meets, but is not limited to, FAR part 61.125 (a, 1-4). Satisfactory completion of this course may result in an endorsement for the FAA Commercial Pilot written exam.

Pre: AVIA 150, or equivalent

Fall, Spring

**AVIA 251 (3) Commercial Pilot Flight Lab**

Prepares advanced flight students with the in-flight requirements needed to obtain the FAA Commercial Pilot’s Certificate.

Pre: AVIA 151, or equivalent

Fall, Spring

**AVIA 252 (3) Commercial Pilot Helicopter Flight Lab**

Prepares advanced flight students with the in-flight requirements needed to obtain the FAA Commercial Pilot Helicopter Certificate.

Pre: AVIA 152, AVIA 242

On-Demand

**AVIA 270 (3) Helicopter Pilot**

Study of Helicopter theory to meet FAA part 141 certification requirements for helicopter.

Pre: AVIA 150, AVIA 250, AVIA 260

On-Demand

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>AVIA 275 (3)</td>
<td>Helicopter Flight Theory</td>
<td>This course covers all the knowledge areas required for the FAA helicopter private, instrument and commercial pilot certification at a deeper and more academic level. Variable</td>
</tr>
<tr>
<td>AVIA 333 (3)</td>
<td>Airline Operations</td>
<td>Designed to cover the complex area of operation techniques and problems confronting the airlines today. Entails a study of marketing research, passenger trends, feasibility route studies, etc. Fall, Spring</td>
</tr>
<tr>
<td>AVIA 334 (4)</td>
<td>Airline Management</td>
<td>Provides an understanding of management and financial techniques related to aviation businesses. Generally accepted and proven business techniques and proven business techniques are applied to the aviation setting. Fall, Spring</td>
</tr>
<tr>
<td>AVIA 337 (3)</td>
<td>Avionics</td>
<td>Principles of Avionics is an expanded course on the theory and Applications of Aviation Electronics for future pilots and students of aviation and aeronautics. The course highlights modern synthetic displays, navigation, automatic flight control, FMS, and other essential aircraft equipment. Variable</td>
</tr>
<tr>
<td>AVIA 338 (3)</td>
<td>Aircraft Systems</td>
<td>Hyrdraulic, pneumatic, electrical, pressurization, environmental, and other systems for large-transport category aircraft are covered. Also turbine engines, primary and secondary flight controls, and miscellaneous important systems are examined. Examples of systems in large transport-category jets will be discussed from the pilot operational perspective.</td>
</tr>
<tr>
<td>AVIA 339 (3)</td>
<td>Aerospace Propulsion</td>
<td>The course provides basic principles of operation and components description of the traditional and modern propulsion systems used in atmospheric and space transportation vehicles. Reciprocating engines with propellers, turbine jet engines, and chemical rockets are covered. Spring</td>
</tr>
<tr>
<td>AVIA 340 (3)</td>
<td>Flight Operations</td>
<td>Introduces students to the operating procedures, systems applications, and techniques used in high performance and turbine aircraft for corporate and regional airline operations. Emphasis is on regulations, SOP’s, aircraft systems, flight techniques, and operations of turboprop and regional jets. Fall, Spring</td>
</tr>
<tr>
<td>AVIA 343 (3)</td>
<td>Airport Management</td>
<td>Provides an understanding of management and operations techniques related to airports. Aspects of design, finance, planning and public relations are emphasized. Spring</td>
</tr>
<tr>
<td>AVIA 360 (3)</td>
<td>Flight Instructor</td>
<td>A study of the fundamentals of instruction including the learning process, effective teaching evaluation, course development, lesson planning, and instructing techniques. The course meets, but is not limited to, FAR part 61.187 (a, 1-6). Satisfactory completion of this course may result in an endorsement for the FOI and CFI-A written exam. Pre: AVIA 150, AVIA 250, AVIA 260 Fall, Spring</td>
</tr>
<tr>
<td>AVIA 361 (1)</td>
<td>Initial CFI-Airplane-Multiengine Flt Lab</td>

<td>Prepares advanced flight students with the in-flight requirements needed to obtain the FAA Instrument Flight Instructor Helicopter Certificate. Pre: AVIA 242, AVIA 252 On-Demand</td>
</tr>
<tr>
<td>AVIA 432 (3)</td>
<td>Aviation Law I</td>
<td>To instruct the student relative to legal implications of aircraft ownership, leases, rentals, and overall aircraft operation. Emphasis is placed on the understanding of liability and negligence from the operator and pilot standpoints. Spring</td>
</tr>
<tr>
<td>AVIA 435 (3)</td>
<td>Aviation Law II</td>
<td>This course will take an in-depth look at several legal topics that touch the aviation industry. The course will use the case study method to look at several aviation-related cases, including commercial airline accidents, pilot certificate actions, airline security violation cases, international aviation law, and several other current legal matters that involve the airline industry. Pre: AVIA 432 Spring</td>
</tr>
<tr>
<td>AVIA 436 (3)</td>
<td>Advanced Flight Operations</td>
<td>Introduces advanced professional flight students to the standardized utilization and troubleshooting of systems and techniques used in high performance turbine aircraft. Emphasis is on SOP’s, aircraft systems, flight techniques, and operations of narrow- and wide-body large transport category jets. Pre: AVIA 340</td>
</tr>
<tr>
<td>AVIA 437 (4)</td>
<td>Aviation Safety</td>
<td>The understanding and implementation of safe operating procedures. Assists the student in arriving at proper decisions related to periods of stress when operating as pilot in command. Various FAA regulations and standard and safe operating procedures are also discussed. Fall</td>
</tr>
<tr>
<td>AVIA 442 (3)</td>
<td>Fundamentals of Air Traffic Control</td>
<td>To provide the student with the basic knowledge of ATC as a career and the fundamentals necessary for FAA certification. Fall</td>
</tr>
</tbody>
</table>
AVIA 443 (3) Airline Dispatch
Introduces the workings of the complex system of air control in the US and abroad. Covers such subjects as radio communications, airspace classification, radar control, and operation as well as aircraft separation. Looks at present and future air traffic control systems.
Spring

AVIA 445 (3) Aviation Human Factors
A study of various techniques designed to enhance management and leadership methods. Emphasizes decision-making and judgment skills as well as methods to improve effective communication and skills to develop a productive work environment for flight crew and other airline personnel.
Fall

AVIA 450 (3) Professional Pilot Theory
Introduces the technical training required for the operation of large transport-category aircraft in airline service. Aircraft performance, advanced aerodynamics, We&B, High-Altitude weather, regulations, SOP’s, and advanced instrument flying techniques and procedures are covered. This course exceeds knowledge necessary to pass the FAA written test for the Airline Transport Pilot (ATP) Certificate.
Pre: AVIA 250, AVIA 260
Fall

AVIA 451 (4) Professional Pilot Flight Lab
Prepares students who desire careers as professional pilots. Emphasizes complete ground tutoring and flight instruction relating to instrument maneuvers, SOP’s, regulation interpretation, pilot discipline, and professional procedures. Crew resource management, LOFT, and turbine-transition flights in an advanced jet flight simulator are used.
Pre: AVIA 241, AVIA 251
Fall, Spring

AVIA 455 (3) Aircraft Performance
The fundamental principles and calculation of the performance in various phases of flight: takeoff and land, climb and descent performance, maximum-range and maximum-endurance cruise, single-engine performance in multi-engine aircraft, standard atmosphere and basic subsonic and supersonic aerodynamics is covered.
Pre: AVIA 201
Variable

AVIA 458 (3) Aeromedical Factors
Covers aeromedical factors that are essential for high-altitude flying aircraft. Hypoxia, hyperventilation, dysbarism, basic gas laws. Armstrong line, vision in flight, day and night. Pressurization systems, pressurized suits, danger of loss of cabin pressure, future HSCT and LEO commercial flights.
Variable

AVIA 490 (1-10) Aviation Workshop
Variable

AVIA 497 (1-12) Aviation Internship
Supervised experience in business, industry, state or federal institutions.
Fall, Spring

AVIA 499 (1-6) Individual Study in Aviation
Allows the student an individual course of study on an aviation topic to be arranged with the department. This course will be writing intense.
Fall, Spring
