Policy

A student’s work in any course will be evaluated in accordance with the following system of letter grades: A, B, C, D, F, NC and P.

Note: In some instances, students can choose either a letter grade or pass/no credit for a particular course. If a student wishes to change the grading method after registration, they may do so within certain deadlines which are published on the webpage of the Office of the Registrar (Dates page).

- A represents work of definitely superior quality.
- B represents a better-than-average level of performance.
- C represents an average-level of performance.
- D represents below-average performance.
- F represents an unacceptable level of performance (regular graded courses).
- NC represents an unacceptable level of performance (P/NC graded courses).
- P represents passing performance (P/NC graded courses).

In addition to use of straight A, B, C, and D letter grades, faculty members will have the option of using +/- additions.

Procedures

Pass/No Credit

Under the pass/no credit (P/NC) system, a student may register for a course with the understanding that a P will be recorded if passed. If the course is not passed, no credit will be given and an NC will be recorded on the permanent record. Whether the indication is P or NC, the hours taken will not affect the grade-point average.

To receive a P, the student will be required to perform at "C" (2.0) level or better. Individual departments may offer pass/no credit courses at any level of undergraduate instruction. Departments offering courses at the graduate level may use Pass/No Credit grades for theses, individual study courses, practicums, workshops, tours, seminars, and internships in the major field. They may not use Pass/No Credit grades for other courses in the student’s major without specific approval of the Dean of the College of Graduate Studies and Research.

A limited number of P/NC units are accepted to apply toward a major and no more than 30 credits of the total undergraduate degree requirements may be earned in pass/no credit courses. Courses offered for only P/NC grading are exempted from the one-fourth computation. Please note: Courses taken for P/NC credit may be applied to major or minor requirements for graduation only at departmental discretion. Each student has the responsibility to determine individual departmental policy in this regard.
Incomplete Grades (I)

The grade of “incomplete” is reserved for special cases and means that, because of extenuating circumstances, the student failed to meet an important requirement of the course, but has in other respects done passing work for the semester. The incomplete must be made up in the next semester in which the student is enrolled at the University. Longer or shorter periods can be arranged between the student and instructor who assigned the grade; the instructor must file an “Extension of an Incomplete” form with the Office of the Registrar if more time than one semester is to be granted. If the deficiency is not made up within the specified time, the grade automatically becomes an F (regular-graded course) or NC (P/NC graded course).

Students making up an Incomplete should not re-register for the same class. Students making up Incompletes cannot use these credits for enrollment or financial aid verification in subsequent terms. Incompletes do not demonstrate satisfactory academic performance for purposes of calculation of Financial Aid and academic status.

In-Progress Grades (IP)

The grade of “in-progress” is reserved for courses that are designed to take more than one term to complete, e.g. thesis courses.

Change of grade forms should be submitted as soon as the student has submitted the work or completed the project. “IP” does not count as credit earned and students cannot graduate with a grade of “IP” in their transcript. Grades of “IP” will be converted to an F (regular-graded course) or NC (P/NC graded course) if the student has not finished the work by the time he or she graduates.

Pass Extraordinary (PE)

The grade of “pass extraordinary” is given for courses that are finished within one term but are designed to go past the grading deadline. Examples would be courses taken at universities abroad which run on a different semester schedule, or practica, internships, or independent study projects that have an end date after the last day of classes but before the next semester starts.

The grade of “PE” counts as credit attempted and earned both for academic standing and financial aid status considerations; however, it is only a passing grade placeholder. After the conclusion of the student’s course experience, a final grade will replace the PE grade. Therefore, a student cannot graduate with a PE grade in their transcript. Grades of PE that have not been converted into a passing grade by the end of the following term, will default to an F (regular-graded course) or NC (P/NC graded course).

The use of the PE grade must be authorized by the instructor of record and the department chair before the end of the deadline for changing the grading method for a course.

Grade “Z”

“Z” is used as a placeholder to mark that no grade has been submitted yet by the instructor of record. Credits for a course with a grade of “Z” count as attempted but not earned.
Quality Points

Quality points (grade points) are determined on the basis of letter grades. The number of quality points earned for a course may be determined by multiplying the number of points the grade commands by the number of credits the course carries. Quality point calculations are as follows:

- A+ = 4.00
- A = 4.00
- A- = 3.67
- B+ = 3.33
- B = 3.00
- B- = 2.67
- C+ = 2.33
- C = 2.00
- C- = 1.67
- D+ = 1.33
- D = 1.00
- D- = 0.67
- F = 0
- P = 0
- NC = 0
- I = 0
- IP = 0
- PE = 0

Grade-Point Average (GPA)

The total number of quality points acquired by the student divided by the total number of credit hours attempted on a regular grade basis, is called the grade-point average (GPA). For example, if a student has earned 102 quality points and has completed 48 credits of work, the grade-point average is 102 divided by 48, or 2.125. Grades of Z, NC and P have no effect upon the calculation of a grade-point average. The cumulative GPA includes transfer work and Minnesota State Mankato credits. The local GPA is used to determine academic standing and Financial Aid eligibility but the cumulative GPA is used for graduation.

Policy Rationale

Faculty members at Minnesota State University, Mankato have the responsibility to evaluate students’ academic performance (IFC Collective Bargaining Agreement, Article 10, Section A). No provision in this policy mandates that any instructor must use +/- grading; this policy does allow those faculty members who wish to use +/- grading that opportunity.
