

SOCIOLOGY

Sociology is the science of society and human social behavior. Sociology can help prepare you for a variety of careers and improve your ability to promote social justice in your community. Sociological knowledge is a very powerful instrument in understanding the social dynamics of politics, family, community, work, sexuality, injustice, and so much more. Sociologists study a little bit of everything and strive to make a real-world impact.

PROGRAMS

DEGREES AND CERTIFICATES

- Bachelor of Science in Sociology
- Sociology Minor
- Master of Arts in Sociology
- Master of Science in Sociology: Human Service Planning & Administration
- Master of Arts in Sociology: College Teaching

ABOUT THE PROGRAM

The Sociology program at Minnesota State Mankato leads to careers in academic and applied settings, including human services, government, business, nonprofit organizations, and social action organizations. As sociologists, we are able to understand how people's lives, dreams, opportunities, and decisions are shaped by society. We use that knowledge to promote social justice for all.

REAL-WORLD CONNECTIONS
