- Federated Insurance

Placement rates are currently near 100 percent and opportunities for advancement are unlimited.

EXAMINING THE QUALITY OF OUR PROGRAM

Accreditations

We are accredited by the American Association of Collegiate Schools of Business (AACSB). This is the premier standard for colleges of business. Less than five percent of the world's business schools have earned this hallmark of excellence.

Faculty

The program is comprised of 13 accounting and business law faculty. Terminal degrees are held by 90 percent of the accounting faculty, and most have professional certifications (CPA, CMA, CIA, etc.)

Performance on Professional Exams

Our students have historically performed above the national average on the CPA exam.

STUDENT EXPERIENCE

Average Course Size

28 students

Internships

Students are encouraged to gain real-world experience through internships. Our internship office helps students search, secure and prepare for internships. Each year, over 100 College of Business students earn academic credit for their internships, and most opportunities are paid. Contact: Samantha Campa, cobinternships@mnsu.edu, 507-389-2963 or visit cob.mnsu.edu/internships.

Scholarships

The College of Business offers more than \$250,000 in scholarships each year to deserving business students. Applications are accepted during the month of February each year. Visit mnsu.edu/scholarshipfinder to find and apply for scholarships. If you have questions visit mnsu.edu/scholarships or contact the College of Business Student Center at cobadvise@mnsu.edu or 507-389-2963.

Student Organizations

Students are strongly encouraged to join a student business organization to further their college experience. We have very active student organizations that include Beta Alpha Psi and Accounting Club which provide opportunities to meet fellow accounting majors and network with accounting professionals. The organizations invite professionals from recruiting companies to discuss career options and career planning, work culture and expectations, interview skills, and resume building. Beta Alpha is a service fraternity that engages in service. The National Association of Black Accountants Inc. (NABA) is an organization that addresses the professional needs of its members and builds leaders that shape the future of the accounting and finance profession. We also have the Center for Public Trust, which is a student organization devoted to training in ethics and professional responsibility.

Big Ideas Challenge

The Big Ideas Challenge is a new venture competition that encourages and celebrates students' innovative business ideas. The competition gives Minnesota State Mankato students or alumni within two years of graduating the opportunity to compete for money to fund their business. The competition is open to all majors. Individual and team entries are welcome. Contact: Dr. Shane Bowyer, CIE Director, cie@mnsu.edu or visit: cob.mnsu.edu/bic

MAcc

The Master of Accounting degree (MAcc) provides an opportunity for our students to complete 150 credit hours and be qualified for CPA licensing in Minnesota. The MAcc enhances students' technical understanding of all areas of accounting, develops the soft skills that are necessary to succeed in business, and provides the background for greater advancement. The program can be finished in one year and is 30 credits.

Technology in the college

The College of Business has an Enhanced Technology Program, which supports students by providing access to cutting edge technology services and opportunities. We use technology such as cutting-edge simulations for avatars as well as common business applications. We also utilize collaboration technologies for students to work in teams no matter the time and place.

Wall Street Journal Program

Students in the college receive full access to the Wall Street Journal through an academic partnership program. All students enrolled in a College of Business course (100-499 levels) have access to print and digital material from WSJ, and the resources are used throughout the curriculum of the college. The College of Business has been integrating WSJ into classrooms since 2004, and it is the only business school in Minnesota to offer this valuable resource.
