Trey was purpose-designed to embrace how today's students study, interact, and relax. Product features and benefits include:

❖ Ergonomic task chair easily converts into a floor rocker with a table/stool unit in seconds
❖ 360° Swivel
❖ Pneumatic seat height adjustment
❖ Tilt lock control and adjustable tilt tension
❖ Upholstered seat and back available in a multitude of fabric patterns and colors
❖ Contoured foam cushions provide extra sitting comfort and are easily removable for cleaning, repair, or replacement
❖ Large-footprint glides are standard; casters are available as an option
❖ State-of-the-art engineered polymers are used in the construction of the frame and base
❖ Delivered pricing available
❖ Our 10-year warranty – your assurance of quality and lasting value.

Frame and Table Top
Trey’s frame and table top are both constructed of gas-assist injection molded co-polymer polypropylene offering design flexibility to achieve strength, durability, and impact resistance in a unique and highly reliable form.

Seat and Back
The seat and back inner panels are ergonomically formed structural components of injection molded co-polymer polypropylene. Seat padding is in the form of a custom molded high-density polyurethane foam 1¾” thick, while back padding is a 1¼” thick high quality foam cushion. Upholstered panels are removable via tamper-resistant fasteners for cleaning, repair, or replacement.

Mechanism
Trey’s swivel/tilt mechanism is constructed of high-grade 12-gauge steel, electro-coated for corrosion resistance. The mechanism’s single lever provides for actuation of the height adjustment cylinder and the locking of the mechanism’s tilt action. Ease of tilting can be controlled by the mechanism’s tension knob.

Pneumatic Cylinder
Sourced from one of the world’s premier manufacturers, Trey’s pneumatic cylinder provides easy, maintenance-free adjustment of the seat (and table/stool) height. Continuously adjustable over a range of 2¾”, the cylinder also permits 360° swiveling and increases seating comfort due to its pneumatic suspension effect.

5-Star Base
Trey’s base is constructed of injection-molded glass-filled nylon, an extremely strong and tough engineered resin.

Glides and Casters
Standard are Trey’s custom-designed glides of injection molded nylon. Each glide provides 2.25 sq. in. of contact surface for superior stability, load distribution, and flooring protection. Optional casters provide additional mobility.

Transformation
Trey can be transformed from task chair to floor rocker and table/stool in three quick and easy steps. First, release the self-locking latch. Second, lift the rocker off of the base. Third, set the rocker on the floor. Easy as 1-2-Trey.

Cal TB 133 Specifications
All seating products can pass Cal TB 133 when appropriate materials are specified.

COM
Customer’s Own Material is estimated yardage based on 54” wide, solid-color fabric. Actual required yardage may vary depending on special instructions for matching direction of pattern. A sample must be submitted to Sauder Education to determine actual yardage needed and any additional upcharge.

Warranty
Trey is warranted against defects in materials and workmanship for a period of 10 years from date of delivery with the exception of glides, casters, and Sauder Program Fabrics, which are warranted for 3 years.

Note
Fabrics shown in this literature were readily available at time of photography. However, Sauder Education cannot guarantee continuing availability of any fabric or finish.
