UNIVERSITY POLICIES

Statement of Student Responsibilities

Policy Statement

Students are dual members of the Minnesota State University, Mankato community and society. Good citizenship is expected of all students regardless of location. Students who engage in alleged violations of the “Statement of Student Responsibilities” policy may also face civil or criminal penalties. This Statement is not intended to replace federal, state or local legal processes.

The “Statement of Student Responsibilities” was established by students, faculty, and staff to clarify behavioral expectations of students. The following responsibilities promote a sense of community where maturity, personal accountability, and positive regard for the well-being of others frame choices and decision-making:

Student Responsibilities

1. **Individuals will fulfill their academic responsibilities in an honest and forthright manner.**

All students have a responsibility to maintain the academic integrity of the university and each student must at all times keep in mind that his or her behavior reflects not only upon themselves, but upon other students, the faculty, and the university as a whole. Each and every student is responsible for becoming familiar with and abiding by the University policy on plagiarism and academic honesty as well as the guidelines and policies established by their instructors and programs of study.

Examples of violations include, but are not limited to: plagiarism (such as using another’s phrasing, concepts, or line of reasoning as your own); submitting course assignments that are not your own; submitting the same paper in different classes without prior approval from both instructors; cheating on assignments, laboratory reports or examinations; acquiring or using test materials without faculty knowledge; failure to follow class policy; obtaining academic benefits through inappropriate application of technology; computer fraud or unauthorized access; engaging in academic fraud alone or with others; downloading material off the Internet without proper citation; illicit attempts to influence grading; failing to abide by test-taking procedures; signing the class attendance roster for an absent student.

2. **Individuals will respect and foster the academic endeavors of others.**

Minnesota State Mankato exists to promote learning, and as such, students must behave in such a way so as to allow the process of learning to take place by group or individual.

Examples of violations include, but are not limited to: harassment of a faculty member; disrupting teaching or learning; excessive noise that disrupts classes, studying, or University activities; other activities that seriously disrupt the educational process; intentionally altering, inhibiting, or stealing another person’s research.

3. **Individuals will respect the integrity of the University’s academic and administrative records.**

Those records are the property of the University and must be treated as such.

Examples of violations include, but are not limited to: acting alone or with others to misrepresent academic status, performance, awards, or graduation material; omitting material from or manipulating records; falsifying, altering, stealing, or destroying University documents; altering, forging, or misusing University academic records; obtaining grades, course access, awards, or endorsements dishonestly; computer fraud.

4. **Individuals will adhere to all policies and regulations of Minnesota State Mankato and the Minnesota State system along with federal, state, and local laws that govern individual actions and relationships among community members.**

When students accept admission to Minnesota State Mankato, they accept the responsibilities that go along with membership in the University community. The University complies with federal, state, and local laws and expects students to act in accordance with the law. The University holds students to high standards of conduct and ethical behavior, which may exceed legal obligations.

Examples of violations include, but are not limited to: unauthorized or illegal consumption or possession of alcohol; public drunkenness; possession, sale or distribution of illegal material or substances, including medical marijuana on campus; violation of University or departmental policies; violation of law; violation of University email or computer usage policy; possession of false identification; engaging in riotous behavior or encouraging others to do so; illegal gambling; inappropriate use of electronic devices, e.g. cell phones.

5. **Individuals will protect and support the personal safety of self and others.**

Living in a community requires that students respect another’s personal space. Students have the right to pursue their academic and personal goals free from the threat of injury, threats or unwanted contact. Intentionally injurious behavior has the potential to adversely disrupt the academic and personal success of both the student involved and other Minnesota State Mankato students. Physical safety is a prerequisite for maintaining an educational environment. Violations of these expectations need to be addressed in order to maintain the boundaries of all students.

Examples of violations include, but are not limited to: threatening with a weapon or simulated weapon; fighting; physical violence; endangering the health or safety of self or others; reckless actions taken with disregard for the harm that may ensue to self or others; participation in a disturbance which may endanger self or others.

6. Individuals will demonstrate civility for others in all their interactions.

As a member of the Minnesota State Mankato community, all students owe to their fellow students, as well as to the faculty, staff and other members of the community, a basic level of respect; and students have a right to be treated with respect as well. Minnesota State Mankato respects and protects the right of students, faculty, staff and visitors to engage in free speech argument, to advance their opinions and beliefs without fear of reprisal or punishment, and to disagree with one another provided that the exercise of those rights takes place within a legally permissible context.

Examples of violations include, but are not limited to: disruptive noise; terroristic threats; harassment; verbal, written or electronic intimidation; severe or persistent harassment through verbal, written, electronic or graphic expression; hazing (defined as mandating undesirable activities, a pattern of banter/ridicule/criticism, and/or the use of humiliation as a form of initiation); actions that substantially interfere with another person's right to learn and participate.

7. Individuals will show respect for personal and University property.

As a member of the Minnesota State Mankato community, all students will recognize, value, and appropriately regard personal and University property.

Examples of violations include, but are not limited to: identity theft; vandalism; theft; actual or threatened damage to property; acting fraudulently to obtain goods, services, or funds from University departments, student organizations or individuals; misuse and/or wrongful use of University facilities, equipment or services; failure to return University equipment; wrongful sale or use of another's property; knowingly possessing or using stolen property; littering; public urination; trespassing; unauthorized possession, distribution or duplication of a University key(s); providing a key or ID to another person without proper authorization; providing another person with unauthorized access to a secured area; intentional harm to computer equipment and programs.

8. Individuals will contribute to a safe environment within the University community.

The University is a community and requires the active participation of all members in keeping the community peaceable and safe. Students are encouraged to respect and be proactive about their own safety and the safety of others.

Examples of violations include, but are not limited to: possession of weapons, incendiary devices or explosives; possession of articles or substances that are used as weapons or simulated weapons; misuse of University keys; willful failure to identify or false identification of oneself or one's guest(s); failure to assume responsibility for the actions of one's guest(s); misuse or damage of fire fighting, safety or other emergency equipment; failure to comply with appropriate requests from University Security or other University staff members; intoxication that disrupts other individuals or the University's activities; self-injurious substance abuse; or interference with law enforcement or University staff performing their duties.

9. Individuals will comply with the University in enforcing its administrative responsibilities.

Successful operation of the University requires adherence to policies and procedures by its members. It is the responsibility of all University students, staff, and guests to cooperate at all times with the University in order to maintain a safe environment.

Examples of violations include, but are not limited to: retaliation towards an individual for involvement in a University activity; disruption of activities of the University; harassment of University staff (including student staff); submission of a false or purposely incomplete statement/report; misuse, alteration, or transference to another person of the MavCARD; failure to appear in response to a proper summons when requested to do so by a University official; disruption of disciplinary activities; dishonesty as part of a University hearing; misuse of one's position within the University; failure to comply with sanctions from a disciplinary hearing; failure to comply with restriction from areas on campus; or demanding inordinate amounts of attention from faculty or staff.

Procedures

The student conduct system promotes and enforces the "Statement of Student Responsibilities" policy following a philosophy of educational discipline. Through involvement in the adjudication process, students have an opportunity to learn new ways of resolving difficulties and relating to others while strengthening their comprehension of rules and regulations necessary to maintain a safe environment conducive to learning and growth.

- Each student is responsible for knowing and adhering to the prescribed community standards. A student found to have violated the "Statement of Student Responsibilities" policy will receive a maximum disciplinary sanction of expulsion, or any sanction not less than a warning.
- Disciplinary action is cumulative resulting in more serious consequences if the student engages in repeat violations or fails to follow through with sanctions from a previous hearing.
- Being under the influence of alcohol and/or other drugs does not in any way excuse or mitigate responsibility for a student's actions. The excessive, illegal, unprescribed or otherwise socially irresponsible use of alcohol or other drugs infringes upon one's ability to preserve personal integrity and civility.

Minnesota State System Board Policy on Student Rights and Responsibilities

Board Policy 3.1

Part 1. Freedom to Learn

Students at colleges and universities have specific rights related to academic freedom and their status as students. Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends on appropriate opportunities and conditions in all learning environments, on the campus, and in the larger community. Students are expected to exercise their freedom with responsibility.

Part 2. Freedom of Expression

Individual students and student organizations shall be free to examine and discuss all questions of interest to them and to express opinions publicly and privately. They shall be free to support causes by orderly means that do not substantially disrupt the regular and essential operations of the college or university. Students shall be free to take reasoned exception to the information or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

Part 3. Freedom of Association

Students shall be free to organize and join organizations to promote their common and lawful interests, subject to college or university policies, procedures, or regulations. Registration or recognition may be withheld or withdrawn from organizations that violate college or university policies, procedures, or regulations.

Part 4. Student-Sponsored Forums

Students shall have the right to assemble, to select speakers, and to discuss issues of their choice. The college or university shall establish reasonable time, place, and manner restrictions to assure that the assembly does not substantially disrupt the work of the college or university or interfere with the opportunity of other students to obtain an education or otherwise infringe upon the rights of others. Such restrictions must not be used as a means of censorship. The president or designee may prohibit any forum when there is a likelihood of harm to individuals or damage to property if the event is held. To the extent possible, the president shall consult with the student association.

Part 5. Student Publications

Student-funded media (print, broadcast and electronic forms) must be free of censorship and advance approval of copy. Their editors and managers shall be free to develop their own editorial and news coverage policies. Editors, managers, and contributors of student media shall be protected from arbitrary suspension and removal because of student, faculty, administrative, or public disapproval of editorial policy or content. The student fee allocation process must not be used as a means of editorial control of student-funded media. All student media must explicitly state that the opinions expressed are not necessarily those of the college, university, Minnesota State, or student body.

Part 6. Student Policies

The policies, procedures, and regulations of the college or university regarding student expectations, rights and responsibilities must be readily accessible to students.

Part 7. Catalog and Course Information

To the extent possible, students must be provided relevant and accurate information regarding courses prior to enrollment. Catalog course descriptions and website postings must be accurate and based on information existing at the time of publication. To the extent possible, class schedules must list the names of faculty teaching the courses.

Part 8. Student Academic Standing Information

Students must have access to accurate information for establishing and maintaining acceptable academic standing, information which will enable students to determine their individual academic standing, and information regarding graduation requirements.

Part 9. Academic Evaluation

Student academic performance must be evaluated solely on the basis of academic standards, including any requirements that are noted in the catalog, course syllabus, student handbook, or on the college or university website. Students must have protection against prejudiced, discriminatory, or capricious evaluation and not be evaluated on the basis of opinions or conduct in matters unrelated to academic standards. Students must have the right to review their corrected examinations or other required assignments that faculty use when evaluating the student's academic performance.

Part 10. Property Rights

When no longer needed for evaluation purposes, a student's physical personal property, including but not limited to term papers, essays, projects, works of art, and similar items must be made available for return to the student within a reasonable timeframe. The return process must preserve the privacy of the student's grade or score. A student's written permission must be obtained before a student's personal property, including intellectual property, may be used for purposes unrelated to the evaluation of their academic performance.

Part 11. Student Review and Consultation

Students must have the right to appropriate levels of participation in college and university decision-making pursuant to Board Policy 2.3 and System Procedure 2.3.1, Student Involvement in Decision-Making.

Academic Honesty

Policy

As members of this University community, students assume the responsibility to fulfill their academic obligations in a fair and honest manner. This responsibility includes but is not limited to avoiding inappropriate activities such as plagiarism, cheating or collusion. Students found responsible for one or more of these activities may face both academic sanctions (such as lowering a grade, failing an assignment, failing of a course, removal from an academic program, etc.) and disciplinary sanctions (such as probation, suspension, or expulsion).

It is the intent of Minnesota State University, Mankato to encourage a sense of integrity on the part of students in fulfilling their academic requirements. To give students a better understanding of behaviors that may constitute academic dishonesty, the following definitions are provided.

Plagiarism: Submission of an academic assignment as one's own work, which includes critical ideas or written narrative that are taken from another author without the proper citation. This applies both to direct quotes and to critical ideas paraphrased by the student. Plagiarism includes but is not limited to:

- submitting the work of others as your own;
- submitting others' work as your own with only minor changes;
- submitting others' work as your own without adequate footnotes, quotations, and other reference forms; or
- multiple submission of the same work, written or oral, for more than one course without both instructor's permission, or making minor revisions on work which has received credit and submitting it again as new work.

Cheating: Use of unauthorized material or assistance to help fulfill academic assignments.

This material could include unauthorized copies of test materials, calculators, electronics, crib sheets, help from another student, etc.

Collusion: The act of students working together in a dishonest manner to fulfill an assignment.

The Procedures for this Policy are available at <https://www.mnsu.edu/policies/approved/academichonesty.pdf>

Access for Students with Disabilities

Minnesota State University, Mankato recognizes that disability is an aspect of diversity and students with disabilities must be ensured equitable access to programs, opportunities, and activities at the University. All programs, services, facilities, technology resources, and activities of the University, when viewed in their entirety, will be accessible to and usable by students with disabilities. All classes, meetings, programs, or other events will be held in facilities that are accessible. Announcements of meetings or other events will contain a statement indicating the availability of accommodation of disabilities upon request.

Requests for accommodation must be initiated by the student and supported by documentation of the disability. Reasonable accommodations may include: alterations to rules, policies, or practices, removal of architectural or communication barriers, and/or the provision of auxiliary aids.

Minnesota State University, Mankato has the right to refuse to provide an accommodation that poses a direct threat to the health and safety of others, constitutes a substantial change or alteration to an essential element of a course or program, results in undue financial or administrative hardship to the University, or is considered a personal device or service (i.e. wheelchairs, hearing aids, personal transportation).

Procedures:

All students with a disability may request accommodation through Accessibility Resources.

Responsibilities of students seeking accommodation for their disability include:

- Self-identify as an individual with a disability through Minnesota State University, Mankato Accessibility Resources.
- Provide current documentation from an appropriate professional that describes the nature of the disability, functional limitations, and the need for specific accommodations.
- Follow specific Accessibility Resources procedures for obtaining reasonable and appropriate accommodations, including meeting timelines each semester. Faculty and staff are not required to provide accommodations when students do not fulfill their responsibilities.
- Abide by the Minnesota State University, Mankato Student Code of Conduct.
- Meet the University's qualifications and essential technical, academic, and institutional standard.

Responsibilities of Accessibility Resources include:

- Determine eligibility for participation of students with disabilities in the accommodations process based upon a review of appropriate documentation.
- Determine reasonable accommodations for each student based on the individual's disability related needs.
- Assure the student receives appropriate accommodations.
- Support and advise faculty and department staff regarding student disability accommodations as they relate to program standards.

Responsibilities of faculty and staff include:

- Understand and comply with the University's policies and procedures for providing accommodations to students with disabilities.
- Notify students, through the class syllabi and/or departmental electronic and printed materials, that accommodations are available.
- Discuss with Accessibility Resources staff any concerns related to the accommodation(s) or arrangements that have been requested by the student.
- Maintain appropriate confidentiality of information and communication regarding students with disabilities, except as permitted/required by law.

This grievance process shall apply to situations where a student has followed the established procedures to request accommodations on the basis of disability and the request has been denied or otherwise not provided.

- Written or emailed grievances should be filed within 30 days of the date the incident occurred with the Director of Accessibility Resources.

Discrimination Complaint Procedures

- If an informal resolution is not reached through the Denial of Accommodation Request Grievance filed with Accessibility Resources, the student should file a complaint through the University's Office of Equal Opportunity and Title IX (507-389-2986; eoitleix@mnsu.edu)
- Students also may file a complaint directly with the U.S. Department of Education's Office for Civil Rights (<http://www.ed.gov/about/offices/list/ocr/index.html>) or with the Minnesota Department of Human Rights (www.humanrights.state.mn.us). The Statute of Limitations for filing a complaint with the Office for Civil Rights is 180 days from the date the incident occurred.

Confidentiality and Maintenance of Records

All disability-related documentation will be centralized in a confidential file in Accessibility Resources. Departments, faculty, and staff may not access diagnostic or other information regarding a student's disability and may not keep copies of such documentation. Information concerning a student's disability should be disclosed only to those with a legitimate "need to know." Sharing of information with other faculty and staff needs to be balanced with the student's interest while maintaining their privacy. Confidentiality is not maintained in the case of child abuse, suicidal or homicidal intent.

A confidential file is maintained on each student that includes demographics, documentation of the disability, a record of each contact and action taken. An electronic database is utilized for caseload management purposes for Accessibility Resources staff only. Student records will be shredded seven years after the last contact, but Accessibility Resources will maintain a record of each student and their dates of affiliation with the Office.

Rationale:

Minnesota State University, Mankato, is committed to achieving equal educational opportunity and full participation for persons with disabilities. Achieving full participation and integration of individuals with disabilities requires the cooperative efforts of all the departments, offices, and personnel. Assurance of equal educational opportunity rests upon legal foundations established by federal law, specifically the Rehabilitation Act of 1973 including Section 504, and the Americans with Disabilities Act Amendments Act of 2008.

By federal law, a person with a disability is any person who: 1) has a physical or mental impairment; 2) has a record of such impairment; or 3) is regarded as having such an impairment which substantially limits one or more major life activities such as self-care, walking, seeing, hearing, speaking, breathing, or learning.

A qualified individual is a person who, with or without reasonable modifications to rules, policies, or practices, the removal of architectural, communication, or transportation barriers, or the provision of auxiliary aids and services, meets the essential eligibility requirements for receipt

of services or participation in a university program or activity. Essential eligibility requirements include, but are not limited to, academic and technical standards requisite to admission or participation in an education program or activity. (Minn. State Board Policy 1B.4, Subpart C).

Alcohol and Other Drugs Policy

(Under review at the time of publication)

The possession, consumption, manufacture, sale, and/or distribution of alcohol, medical marijuana, illicit drugs and/or illicit drug paraphernalia are prohibited. This policy applies to:

- All persons whether or not they are a member of the University community.
- Individuals of all ages, even though they may be of legal age to consume or possess alcohol.
- Medical marijuana cardholders.

The jurisdiction of the policy shall be consistent with the criteria established in Minnesota State system Policy 3.6 Student Conduct, Part 2, and shall be applied to the off-campus behaviors of both students and employees for the violation of the Alcohol and Other Drugs Policy when:

- Hazing is involved; or
- The violation is committed while participating in a university sanctioned event or sponsored activity; or
- The victim of the violation is a member of the university community; or
- The violation constitutes a felony under state or federal law; or
- The violation adversely affects the educational, research, or service functions of the university.

Violations that fall under this category include but are not limited to:

- Significant first time alcohol or drug-related legal violations (i.e. providing alcohol to minors, social host violations, distribution of illicit drugs, etc.).
- Repeated alcohol or drug-related legal violations.
- Situations where the student or employee's substance use results in a need for medical assistance.
- Situations where the alcohol or drug use prevent the student or employee from being able to fulfill essential functions designated in their role associated with the university or creates a direct threat to the safety of others.

Exceptions

The only exceptions to the Alcohol and Other Drugs Policy are:

- Use of alcohol by legal-aged individuals while attending university sanctioned events when alcohol consumption has been approved by the sponsoring organization and does not violate any state or federal laws, and is consistent with Minnesota State system Procedure 5.18.1 Alcohol Use and Controlled Substances on Campus for events approved by the University President.

- Any promotion and/or advertising of alcoholic beverages placing an emphasis on quantity and frequency of use.
- Using alcoholic beverages as awards, prizes, or promotional items in connection with university sponsored events.
- Advertising and other promotional campus activities associating alcoholic beverage consumption with the performance of tasks that are unlawful while under the influence of alcohol such as operating a motor vehicle.
- Sponsorship of events or activities that emphasizes alcohol or illicit drug use.

Procedures

Recognized Student Organizations

Under Minnesota State Mankato Recognized Student Organizations, Privileges and Responsibilities policy, the Student Government may assign disciplinary sanctions and other consequences when organizations are found responsible for a policy violation.

Employees

Employees who violate the Minnesota State Mankato Alcohol and Other Drugs policy are subject to disciplinary action, up to and including termination of employment. Disciplinary action for violations of the Alcohol and Other Drugs policy will be managed by the Office of Human Resources and must be consistent with the employee's respective bargaining contract. Employees with alcohol or other drug use problems may be referred to the Employee Assistance Program or elsewhere for assessment and/or counseling.

Individual Students

Alleged violations of the Minnesota State Mankato Alcohol and Other Drugs policy will be managed and sanctions will be determined through the Office of the Vice President for Student Affairs and Enrollment Management, Residential Life, or identified designees. In addition to educational sanctions for violations of this policy, one or more of the following disciplinary sanctions may apply for on or off-campus behavior: University Warning, University Disciplinary Probation, Residential Housing Contract Termination, Suspension and/or Expulsion. Students living in the residence communities may have their housing contracts terminated for on or off-campus behavior.

In accordance with Minnesota State system consultation guidelines for student fees, students will be consulted annually on the development of these educational sanctions and appropriate costs. Educational sanctions and their costs will be determined annually prior to the start of the academic year. Direct costs associated with sanctions shall be the responsibility of the student violating the Alcohol and Other Drugs policy.

Sanctions are cumulative over the course of a student's entire education at the University. Students who fail to complete their sanctions may be subject to an administrative hold on registration and records.

Medical Amnesty

Medical amnesty from formal campus discipline is intended to reduce the barriers that may inhibit students, who are themselves under the influence of alcohol and/or other drugs, from seeking help when faced with a life threatening emergency caused by substance use. Such students will be eligible for conditional medical amnesty when a student not acting in a staff capacity seeks help for anyone believed to need medical care due to the ingestion of alcohol or drugs.

Eligibility for medical amnesty on-campus will be limited to the student needing medical assistance and the first student who called 911 or campus officials. This call must have been placed prior to an awareness that University staff, law enforcement personnel, or medical personnel are responding.

The student under the influence who placed the initial emergency call will be immune from disciplinary sanctions, but must complete an educational sanction at no cost. Failure to complete the educational sanction by the deadline, or violating the Alcohol and Other Drugs policy within 12 months, will result in progressive discipline. The student will also be billed retroactively for the first educational sanction along with the cost of any other educational sanctions resulting from the second violation.

A student under the influence requiring emergency medical assistance will be immune from disciplinary sanctions, but must complete an educational sanction at no cost. Failure to complete the educational sanction by the deadline, or violating the Alcohol and Other Drugs policy within 12 months, will result in progressive discipline. The student will also be billed retroactively for the first educational sanction along with the cost of any other educational sanctions resulting from the second violation.

Students granted medical amnesty will not be immune from disciplinary action for other types of violating behaviors stemming from the incident, such as vandalism, non-compliance with staff, quiet hours disruption, guest/host policy violations, or committing a suspected physical or sexual assault.

Rationale

The purpose of this policy statement is to maintain a campus environment that promotes healthy, responsible living, affirms civility, supports the well-being of each of its members, and is respectful of state and federal law and institutional regulations governing behavior. Respect for campus/community standards and regulations is expected.

Alcohol, marijuana and other drug use potentially affect the safety, health, and quality of life of all students and employees. Additionally, alcohol and drug use frequently affect the image of the University

and restrict the ability of Minnesota State Mankato to carry out its mission. Alcohol misuse, marijuana, and illicit drug use minimizes an individual's abilities to develop his/her academic or social relationships. The University recognizes that students and employees are responsible for their own conduct and for the consequences of their behavior.

The University acknowledges the rights of businesses that produce, sell and/or serve alcoholic beverages to advertise their products and services to the public. The University reserves the right to protect its educational mission and learning environment from inappropriate product promotions and irresponsible merchandising and advertising. In regard to marketing, University offices, departments and contracting agencies must give careful consideration to the University's mission to determine the consistency of the message being sent when involved in advertising and/or other promotional activities related to alcoholic beverages and alcohol and other drug paraphernalia. University-affiliated publications should be aware that they are representatives of the institution as a whole. Advertising practices that violate the standards established by the industry itself and which encourage misuse of alcohol or other drugs as interpreted by University policy will be met with appropriate University action.

The University Alcohol and Other Drugs policy shall provide guidance and authority for any subordinate policies related to alcohol and drugs at Minnesota State Mankato (i.e. Residential Life, Business Office, Athletics, Vehicle Use, etc.). While subordinate policies may be more specific, they must, at minimum, adhere to the University's Alcohol and Other Drugs policy and maintain its integrity.

Department of Residential Life Policies

The policies and procedures published in the Residential Life Student Guide and the Stadium Heights Student Guide provide useful information on services available in the residence communities and apartments and how you can use them. They also outline expectations developed to safeguard the rights and property of all residents. Living in a residential community requires the cooperation of each person in the group and the policies are designed to provide a framework for behavior that represents an understanding of the group living environment. Reading your Student Guide is an excellent way to familiarize yourself with the services available and to learn more about your rights and responsibilities as a resident.

Minnesota State System Board Policy 1B.1 Equal Opportunity and Nondiscrimination in Employment and Education

Part 1. Policy Statement.

Subpart A. Equal opportunity for students and employees Minnesota State Colleges and Universities has an enduring commitment to enhancing Minnesota's quality of life by developing and fostering understanding and appreciation of a free and diverse society and providing equal opportunity for all its students and employees. Minnesota State is committed to a policy of equal opportunity and nondiscrimination in employment and education.

Subpart B. Nondiscrimination Minnesota State prohibits discrimination and harassment against persons in the terms and conditions of employment, personnel practices, or access to and participation in educational programs, services, and activities on the basis of membership or perceived membership in any of the following protected classes: race, sex (including pregnancy, child birth, and related medical conditions), color, creed, religion, age, national origin, disability, marital status, status with regard to public assistance, sexual orientation, gender identity, gender expression, veteran status, familial status, and membership or activity in a local human rights commission. Protected class also includes genetic information for employees.

Minnesota State shall maintain and encourage full freedom of expression, inquiry, teaching and research. Academic freedom comes

with a responsibility that all members of our education community benefit without intimidation, exploitation, or coercion. This policy is directed at conduct that constitutes discrimination or harassment under this policy and is not directed at the content of speech. In cases in which statements and other forms of expression are involved, Minnesota State must consider an individual's constitutionally protected right to free speech and academic freedom. However, discriminatory or harassing conduct is not within the protections of academic freedom or free speech.

Part 2. Applicability

This policy applies to all individuals affiliated with Minnesota State, including but not limited to, its students, employees, applicants, volunteers, agents, the Board of Trustees, and others as appropriate and protects the rights and privacy of all involved individuals, as well as prevents retaliation. Individuals who violate this policy will be subject to disciplinary or other corrective action. Allegations of conduct in violation of Policy 1B.1 may be submitted through the process identified in System Procedure 1B.1.1 Intervention and Resolution.

This policy supersedes all existing college, university, and Minnesota State equal opportunity and nondiscrimination policies.

Part 3. Definitions

Any individual employed by Minnesota State, including its colleges, universities, and system office, including student workers.

Stat. Ch. 363A, and their amendments.

Retaliation may occur whether or not there is a power or authority differential between the individuals involved.

Sexual harassment and violence as sexual abuse

Minnesota law provides special protection for children under 18 and vulnerable adults. These laws, Minnesota Statutes sections 260E and 626.557, identify those who are mandated to report neglect or abuse of children under 18 and maltreatment of vulnerable adults. Faculty, student teachers or clinical participants, day care personnel, and others involved in education or services to children or vulnerable adults may be considered mandated reporters under both of these laws. Reports of abuse or neglect of a child or vulnerable adult, must be made to law enforcement or state or county social service agencies.

An employee of Minnesota State shall not enter into a consensual relationship with a student or an employee over whom the person exercises direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority or influence. In the event a relationship already exists, each college, university, and the system office shall develop a procedure to reassign evaluative authority as may be possible to avoid violations of this policy. This prohibition does not limit the right of an employee to make a recommendation on personnel matters concerning a family or household member where the right to make recommendations on such personnel matters is explicitly provided for in the applicable collective bargaining agreement or compensation plan.

Part 5. Retaliation

Retaliation is prohibited at Minnesota State. Any individual covered by this policy who engages in retaliation is subject to disciplinary or other corrective action as appropriate.

Minnesota State System 1B.3 Sexual Violence Policy

Part 1. Policy Statement.

Sexual violence is an intolerable intrusion into the most personal and private rights of an individual, and is prohibited at Minnesota State Colleges and Universities. Minnesota State is committed to eliminating sexual violence in all forms and will take appropriate remedial action against any individual found responsible for acts in violation of this policy. Acts of sexual violence may also constitute violations of criminal or civil law or of other Board Policies that may require separate proceedings. To further its commitment against sexual violence, Minnesota State provides reporting options, an investigative and disciplinary process, prevention training, and other related services as appropriate.

Subpart A. Application of policy to students, employees, Board of Trustees and others. This policy applies to all Minnesota State students and employees, Board of Trustees and to others, as appropriate, where incidents of sexual violence on system property have been reported. Reports of sexual violence committed by a student at a location other than on system property are covered by this policy pursuant to the factors listed in Board Policy 3.6, Part 2. Reports of sexual violence committed by a system employee at a location other than system property are covered by this policy.

Reports of sexual violence committed on system property by individuals who are not students or employees are subject to appropriate actions by Minnesota State, including, but not limited to, pursuing criminal or civil action against them.

Allegations of discrimination or harassment are governed by Board Policy 1B.1.

Subpart B. College and university policies. Each Minnesota State college and university shall adopt a clear, understandable written policy on sexual violence that applies to its campus community, including, but not limited to, its students and employees. The policy content and implementation must be consistent with the standards in this policy and System Procedure 1B.3.1.

Part 2. Definitions.

The following definitions apply to this policy and Procedure 1B.3.1.

Affirmative consent

Consent is informed, freely given, and mutually understood willingness to participate in sexual activity that is expressed by clear, unambiguous, and affirmative words or actions. It is the responsibility of the person who wants to engage in sexual activity to ensure that the other person has consented to engage in the sexual activity. Consent must be present throughout the entire sexual activity and can be revoked at

any time. If coercion, intimidation, threats, and/or physical force are used, there is no consent. If the complainant is mentally or physically incapacitated or impaired so that the complainant cannot understand the fact, nature, or extent of the sexual situation, there is no consent; this includes conditions due to alcohol or drug consumption, or being asleep or unconscious. A lack of protest, absence of resistance, or silence alone does not constitute consent, and past consent to sexual activities does not imply ongoing future consent. The existence of a dating relationship between the people involved or the existence of a past sexual relationship does not prove the presence of, or otherwise provide the basis for, an assumption of consent. Whether the respondent has taken advantage of a position of influence over the complainant may be a factor in determining consent.

Dating, intimate partner, and relationship violence

Violence including physical harm or abuse, and threats of physical harm or abuse, arising out of a personal intimate relationship. This violence also may be called domestic abuse or spousal/partner abuse and may be subject to criminal prosecution under Minnesota law.

Employee

Any individual employed by Minnesota State, its colleges and universities and system office, including student workers.

Non-forcible sex acts

Non-forcible acts include unlawful sexual acts where consent is not relevant, such as sexual contact with an individual under the statutory age of consent, as defined by Minnesota law, or between persons who are related to each other within degrees wherein marriage is prohibited by law.

Sexual assault

An actual, attempted, or threatened sexual act with another person without that person's affirmative consent. Sexual assault is often a criminal act that can be prosecuted under Minnesota law, as well as form the basis for discipline under Minnesota State student codes of conduct and employee disciplinary standards. Sexual assault includes but is not limited to:

1. Involvement without consent in any sexual act in which there is force, expressed or implied, or use of duress or deception upon the victim. Forced sexual intercourse is included in this definition, as are the acts commonly referred to as date rape or acquaintance rape. This definition also includes the coercing, forcing, or attempting to coerce or force sexual intercourse or a sexual act on another.
2. Involvement in any sexual act when the victim is unable to give consent.
3. Intentional and unwelcome touching of a person's intimate parts (defined as primary genital area, groin, inner thigh, buttocks, or breast); or coercing, forcing, or attempting to coerce or force another to touch a person's intimate parts.
4. Offensive sexual behavior directed at another, such as indecent exposure or voyeurism.

Sexual violence

A continuum of conduct that includes sexual assault, non-forcible sex acts, dating and relationship violence, stalking, as well as aiding acts of sexual violence.

Stalking

Conduct directed at a specific person that is unwanted, unwelcome, or unreciprocated and that would cause reasonable people to fear for their safety or the safety of others or to suffer substantial emotional distress.

Student

All persons who:

1. Are enrolled in one or more courses, either credit or non-credit, through a college or university; or
2. Withdraw, transfer, or graduate after an alleged violation of the code of student conduct; or
3. Are not officially enrolled for a particular term but who have a continuing relationship with the college or university; or
4. Have been notified of their acceptance for admission or have initiated the process of application for admission or financial aid; or
5. Are not college or university employees and are not enrolled in the institution but live in a college or university residence hall.

Conduct Review

Historically, RSOs provide an opportunity for students and the community to grow, learn, question and develop as engaged participants on campus, greater Mankato and the globe. At times however, behavior may not meet University standards and review maybe necessary. Members of the community may address their concerns through a formal conduct review.

A conduct review of any organization's actions may be initiated by the Minnesota State Student Government at the written request of any group or individual. All reviews of Recognized Student Organizations shall immediately be subjected to Student Government's Conduct Review Procedures and Sanctions. The request must be filed during the semester in which the alleged violation is first identified to ensure a timely hearing. (If an alleged violation occurs at the end of the academic year and before the new Student Government is in session, it will be moved to the Fall semester.) The Speaker of the Senate will coordinate the investigation and resolution of the allegations against an organization. This policy is not intended to allow sanctioning of the student media for censorship reasons. Other disciplinary procedures separate from this policy are followed for certain situations. The Student Complaints and Grievances policy does not apply to Minnesota State Mankato or Minnesota State system rules or regulations that have an existing appeal or grievance process. For certain situations, other policies and procedures must be followed.

Definitions

Complaint – An oral or written claim of improper, unfair or arbitrary treatment (Minnesota State Procedure 3.8.1 Student Complaints and Grievances) submitted by a student for possible informal resolution.

Grievance – A written claim raised by a student alleging improper, unfair, or arbitrary action by an employee involving the application of a **specific provision** of a college or university rule/regulation or a board policy or procedure (Minnesota State Procedure 3.8.1), submitted by a student on the student grievance form if the initial complaint is not resolved informally.

Appeal – The outcome of a grievance may be appealed by the student or the respondent(s) named in the grievance if either party offers new information or evidence of procedural errors in the handling of the grievance that substantially impacted the outcome.

Respondent – the employee(s), office or department that is the subject of the complaint and/or grievance.

Retaliation prohibited – No retaliation shall be tolerated as a result of any individual’s participation in the student complaint or grievance process.

Data Privacy – Records shall be protected under the Family Education Rights and Privacy Act, Minnesota Government Data Practices Act and the Student Records Policies and Procedures of Minnesota State.

Contractual stipulations – This policy is not an employee disciplinary process. Information collected about an employee while investigating a student grievance, must conform to the procedures included in the appropriate collective bargaining agreement or personnel plan for the employee for whom the complaint is against.

Informal resolution procedure

The student presents an oral or written complaint to the office, department or to the employee(s) involved. For full consideration, the complaint should be filed during the term in which the concern arises or within the first two weeks of the subsequent term. Matters can often be resolved through direct, informal conversation. The student shall be provided an oral or written response to the complaint within 14 business days unless reasonable cause for delay exists. If the complaint is resolved, the process is complete.

Formal grievance procedure

If a concern is not resolved informally, the student may then proceed to the formal grievance procedure. The grievance form must be submitted within 14 business days of receiving the outcome of the complaint.

Step 1

The student obtains an official grievance form, either from the Student Government office, online at <https://mankato.mnsu.edu/university-life/campus-services/student-affairs/student-complaints-and-appeals/submit-complaint-or-grievance/>, or the form located at the end of the policy and submits the form to the Department Director, Dean or Vice President with direct responsibility for the employee(s), office or department involved in the claim. Academic grievances must go to the academic dean.

Step 2

The Department Director, Dean or Vice President or designee determines whether the claim constitutes a grievance within five business days.

1. Employees named on the grievance form will receive copies of the submitted form and any supporting materials, including a copy of the letter determining if the claim documented on the form constitutes a grievance as defined by this policy.
2. Employees named on the grievance form may submit a written response to the claim to the Department Director, Dean or Vice President.

Step 3

If the claim on the grievance form constitutes a grievance (as defined by Minnesota State system policy 3.8 Student Complaints and Grievances), the Department Director, Dean or Vice President will appoint a designee to review the grievance within 21 business days from the determination that the claim constitutes a grievance unless reasonable cause for delay exists. If a meeting is held as part of the review process, both the student grievant and the respondent may be accompanied by a support person who shall not participate directly in the process but may advise the person who invited her/him. The designee will review the grievance and report findings to the Department Director, Dean or Vice President.

Step 4

Within 14 business days of receiving the designee’s findings, the Department Director, Dean or Vice President will inform the grievant and the respondent(s) of a decision. This response will support the student’s proposed remedy, suggest an alternative remedy, or find the grievance without merit.

Appeals

The outcome of a grievance may be appealed by the grievant or the respondent(s) named in the grievance if either party has new information that was not available at the time of the decision of the grievance by the designee or evidence of procedural errors in the handling of the grievance that substantially impacted the outcome.

Appeals must detail the grounds for appeal and identify a suggested remedy. Appeals are to be filed with the administrator responsible for the Department Director, Dean, or Vice President who responded to the grievance form, no later than 7 business days after the parties receive notice of the outcome of a grievance. The administrator reviewing the appeal, or designee, may request a meeting or additional information, if needed. A written decision will be provided to all parties within 21 business days of receiving the appeal unless reasonable cause for delay exists.

If the grievance specifically involves a Minnesota State System Board policy or the actions of the University president, a student may further appeal the University decision to the Minnesota State Chancellor. The decision of the Chancellor is final and binding.

Student Education Records

Policy

Minnesota State University, Mankato complies with the Minnesota Government Data Practices Act (MGDPA) and the Family Education Rights and Privacy Act (FERPA) governing privacy of student records. Education records under MGDPA and FERPA are private. Certain exceptions apply, as noted in the procedures. Data Privacy Protection provides college students, not their parents or guardians, the right to control disclosure of their education records to the extent permitted by law.

FERPA was established in 1974 and FERPA regulations prohibit the University from releasing private information contained in education records unless authorized in writing by the student or permitted under the law.

The Family Education Rights and Privacy Act (FERPA), the Minnesota Government Data Practices Act (MGDPA) and University policies require that specific information related to a student's educational records, including financial information, may not be shared with anyone (including parents /guardians and spouses) other than the student, unless otherwise authorized by law. The law does not consider age and, therefore, even if a student is under the age of 18, the privacy laws still apply.

Complaint and Enforcement Procedures

The Secretary of Education has authorized the Family Policy Compliance Office, within the Department of Education, to investigate process and review FERPA complaints and violations.

Students wishing to file a FERPA complaint may contact the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue S.W., Washington, DC 20202-4605.

Student Right-to-Know & Campus Security Act

The Student Right-to-Know and Campus Security Act increased the level of information universities must collect and provide to current and prospective students and employees and to the Department of Education. The first part of the act, entitled The Student Right-to-Know Act, requires colleges and universities to compile and release institution-wide graduation rates for all students, with more detailed statistical information submitted on the graduation rates of athletes. The graduation rate for Minnesota State Mankato's new entering freshmen, fall term 2016, cohort, is 53 percent. This percentage reflects the number of first time, full-time, degree-seeking students, who received either a baccalaureate degree within six years or an associate degree within three years. The 2016 cohort is the most recent cohort for which a six year graduation rate is available.

Part II of the act, entitled the Jeanne Clery Campus Security Act, requires colleges and universities to annually make available to all current employees, students, and applicants for enrollment or employment a description of policies concerning the security of and access to all campus facilities, policies and procedures for reporting campus crime,

policies concerning law enforcement, along with crime prevention educational programs relating to campus security, and statistics concerning the occurrence of certain categories of campus crimes. Institutions are also required to issue timely warnings to the campus community about criminal activities representing a continued safety threat to aid in crime prevention. In addition, the University complies with the 1998 Higher Education Amendments Act that amended the Campus Security Act by expanding the geographic scope and categories of offenses that must be included in the annual statistics. This information is available in Minnesota State's Annual Security and Fire Safety Report, which is made available annually via the Internet at www.mnsu.edu/safety. Copies are available from University Security, WC 222, 507-389-2111.

Visitors to campus will be informed of the tobacco-free policy and asked to comply.

Rationale

Minnesota State Mankato is committed to providing a clean, safe, and inclusive environment along with the use of data to inform decisions. Tobacco use is a major cause of preventable disease and death, as well as strongly associated with lower academic achievement. The United States Surgeon General has stated there is no risk-free level of secondhand smoke exposure. Secondhand smoke is the third leading cause of preventable death in this country, killing 53,000 nonsmokers in the U.S. each year.

Electronic smoking devices, commonly referred to as e-cigarettes, are prohibited by state law for use indoors and closely resemble and purposefully mimic the act of smoking. The Minnesota Clean Indoor Air Act which prohibits smoking tobacco indoors was amended effective August 1, 2019 to further protect the public and expanded the definition of smoking to include vaping. Besides nicotine, electronic smoking devices can contain harmful ingredients, including ultrafine particles that are inhaled deep into the lungs, aldehydes, flavorings such as diacetyl, a chemical linked to serious lung disease, volatile organic compounds and heavy metals, such as nickel, tin, and lead.

Accordingly, Minnesota State Mankato finds that the purposes of this policy are to break barriers for achievement and create solutions (1) to protect the public health and welfare by prohibiting smoking and the use of tobacco products on campus; (2) to guarantee the right of nonsmokers to breathe smoke-free air, while recognizing that the need to breathe smoke-free air (both second-hand and third-hand smoke) shall have priority over the desire to smoke; and (3) to eliminate the annual cost of tobacco waste clean-up, fires and damage to landscaping on our campus; and (4) to encourage a healthier, more productive living/learning environment for all members of our campus community. A 100% tobacco-free campus policy will advance equity and provide an inclusive environment for all.

In addition, the Minnesota State system Board of Trustees passed a resolution, dated March 16, 2010, stating:

The Minnesota State Colleges and Universities Board of Trustees encourages each college and university to consult with its employees and students about additional steps the institution should take to:

1. Educate employees and students about the danger of tobacco use to themselves and others;
2. Provide information to employees and students about smoking cessation resources available; and
3. Further restrict tobacco use.
