

The Data Glossary has been created by Data Governance Work Group within the institutional effectiveness charge of the Assessment and Evaluation Sub-Meet and Confer in order to establish information context by documenting approved institutional definitions. This tool provides:

- University wide standardization and maintenance of the definitions of data.
- A common definition of data structures and the data content represented by data elements

The glossary is posted and maintained by the Office of Institutional Analytics and Strategic Effectiveness. Access to the glossary will be provided through a public website as well as an internal SharePoint site.

## **Glossary Use -- Finding a Term or Definition**

This document was created in Excel to provide a search capability. Using the "Data --> Sort" function in Excel, users will be able to highlight the entire worksheet and then search for the term by sorting on either Category, Subcategory or Term.

## **Column Headings**

- A. Category**      Categories include: Academic Program, Courses, Financial Aid, Faculty, Employees, Student, General Terminology
- B. Subcategory**      Subcategories includes: Department, Cohort, Credit Hours, Enrollment, Major, Minor, etc.
- C. Term**      The common word or phrase.
- D. Definition**      Explains the term or the metric.
- D. Source**      Provides the source used to create the definition.
- I. Last Revised**      Month-date-year of the last change.

## **[View the Glossary](#)**

## **Review and Update Process**

The Office of Institutional Analytics and Strategic Effectiveness will maintain the glossary to ensure that the definitions and terms remain accurate. Data governance work group members will annually review and recommend revisions prior to the start of each academic year. Ongoing requests will also be accepted via a data glossary change request form accessible from the Office of Institutional Analytics and Strategic Effectiveness internal SharePoint site. Core data governance team members will be notified via the data governance team SharePoint site of requested changes to review and approve changes.

Student	Tuition	Tuition and Fees	The amount of tuition and required fees covering a full academic year most frequently charged to students. These values represent what a typical student would be charged and may not be the same for all students at an institution. If tuition is charged on a per-credit-hour basis, the average full-time credit hour load for an entire academic year is used to estimate average tuition. Required fees include all fixed sum charges that are required of such a large proportion of all students that the student who does not pay the charges is an exception.	IPEDS
