

# ROOM SELECTION

**APPLY FOR HOUSING BY MARCH 4 TO SELECT YOUR OWN ROOM.**

## WHAT IS IT?

### **Online Shopping for your Room**

Students who apply for housing by March 4 will select their room in April. The order of who gets to select first is determined by the date the student reserves housing (it is first come, first served).

Each student is issued a timeslot, which is when they can select their room. You can choose by room type, community, floor, etc.

## TIMESLOTS

### **Use It or Lose It**

Students will be issued a timeslot, which is their assigned time to login to the housing portal and select their room. Timeslots are generated based on the date the student [completed their housing reservation](#). Students have one week to select a room before the timeslot expires.

Timeslots are emailed to students in early April. Timeslots will open the second week of April (on a rolling basis). Details will be shared via email.

## ROOMMATE GROUPS

### **One Timeslot for the Group**

Roommate groups are assigned one timeslot based on the group member with the earliest reservation date.

Any group member can select the room when the timeslot opens. If you intend to select a semi-suite or apartment, make sure the room you select has enough available spaces for all members of your group. If the room says "no roommates or suitemates assigned" it means that the entire room is open.

We advise Roommate Groups to have a back-up plan in case the room type they want is no longer available when their timeslot opens.
