Symbolism and Tradition

Procession

A traditional academic procession introduces the commencement exercises at Minnesota State University, Mankato. The wearing of distinctive apparel as an indication of scholarship and academic rank dates back to the 1300s and was adopted in the United States circa 1900.

Gown

The Minnesota State University, Mankato President's Academic Gown has been specially constructed of heirloom-quality materials for use during formal academic occasions. The bachelor's gown is relatively simple, falling in straight lines from an elaborate yoke. The master's gown is distinguished by its longer sleeves. The doctoral gown is purple, elaborately decorated with velvet panels down the front and three bars of matching velvet on the bell-shaped sleeves.

Mortarboard and Tassel

The square "Oxford cap" or mortarboard of serge or broadcloth is worn for most degrees, although a soft tam is also permitted. The tassel that hangs to the side is switched from the right to the left at the moment the degree is awarded. The color of the tassel indicates the college or area from which a student will receive his or her degree.

Hood

The hood is to be worn by graduates of the College of Graduate Studies and Research. The color of the hood worn by Master's and Doctoral graduates indicates the degree. The velvet edging on the hoods indicate the specialty of study.

Mace

The Minnesota State University, Mankato mace has been made entirely from Minnesota materials in recognition of the value and beauty of the state's natural resources and people. A university mace symbolizes both the university's power to overcome ignorance and prejudice by seeking truth, and the power of the university's president to protect the university and its community from forces opposed to those goals. The mace used in today's ceremony was commissioned and donated to Minnesota State by Fred and Karin Bock. The mace was created by Phil Swan '68.

Presidential Medallion

The Minnesota State University, Mankato Medallion is a round bronze piece that features the University seal and is worn around the neck of the President. The University seal is the official representation of Minnesota State University, Mankato, and use of it or its image is reserved for only the most dignified of occasions.

Minnesota State University, Mankato Flag

The Minnesota State University, Mankato flag features the University seal against a field of purple, one of the designated colors of the University. The flag was commissioned in honor of the October 2003 Inauguration of Dr. Richard Davenport to symbolize the President's chosen direction for his term. The seal is the official representation of Minnesota State University, Mankato and is used sparingly and with dignity. It represents our past and our future and symbolizes our strength and global perspective.

International Flags

The international flags represent countries and sovereign nations of our students. All 11 Minnesota Reservation flags are represented.

Honor Guard

The special honor guard presenting our national colors is from the Department of Military Science Department, Maverick Battalion, Army ROTC.

University History

Mankato Normal School opened as the state's second teacher training school in 1868 in downtown Mankato with 27 students. Tuition was free in return for a student's pledge to teach two years in Minnesota's schools. Old Main was constructed in 1870, and this marked the beginning of the Valley Campus that would serve the institution for a century. In the 1880s, the school expanded and curriculum grew. In 1921 the school became Mankato State Teachers College, and in 1927 the institution awarded its first four-year degree, a bachelor of education.

In the late 1950s, the school was renamed Mankato State College, and construction began on the 300-acre Highland Campus. The College maintained two locations for several years. In 1975, the College received full university status. Four years later consolidation on the Highland Campus was complete. In 1998, for the fifth time in its 130-year history, the University adopted a new name to reflect expanded service to Minnesota and the nation. Minnesota State University, Mankato continues to gain renown for the quality of its programs and the breadth of its service.

Dr. Richard Davenport, appointed by the Board of Trustees of the Minnesota State Colleges and Universities, assumed his responsibilities as the University's twelfth president on July 1, 2002. Under Dr. Davenport's leadership, the University has embraced new strategic priorities; engaged in an academic master planning process; examined its commitment to diversity, and begun to take action to become a more inclusive and welcoming campus; and told our story further and wider than ever before, to legislators, leaders, parents, and alumni throughout the state and the nation.

Minnesota State Mankato offers more than 130 undergraduate programs and more than 85 graduate programs, including masters, specialist and doctoral programs. Our 15,000 students — including more than 1,100 international students from more than 90 countries — and 2,000 faculty and staff represent cultural diversity and a rich mix of intellectual and creative perspectives. Our alumni live and work around the globe, making professional and personal contributions that bring the proud Maverick tradition to new heights.

Celebrating 150 Years of Big Ideas and Real-World Thinking

Minnesota State University, Mankato turns 150 on October 7, 2018—the anniversary of the first day of classes at Mankato Normal School in 1868.

In July 1868, the State Normal School Board authorized the establishment of the second State Normal School in Mankato (the first was in Winona) after the community raised the \$5,000 required by state statute. Since then the school has changed names four times. Most of those name changes happened in conjunction with the evolution of the degrees that the school offered, from the first bachelor's degrees in the 1920s to doctoral degrees in the 2000s. In 1998, the name changed to Minnesota State University, Mankato to reflect the growing national and international presence of the University's programs.

The University's physical presence has evolved over the past 150 years as well. In 1870, the Mankato State Normal School building was completed in downtown Mankato. That building, known as Old Main, served as the only campus building until the Laboratory School was built in 1909. Since then more than 40 academic buildings, residence communities, libraries, research facilities, athletic spaces, and a student union have been constructed. The most recent buildings were opened in 2017: the Clinical Sciences Building and the University Dining Center.

Today, Minnesota State Mankato offers more than 130 programs of study—including more than 85 master's doctoral and certificate programs. It has become known as a university where people expect to go further than they thought possible by combining knowledge and the passion to achieve great things—where big ideas meet real-world thinking.

Please join us in celebrating the University's sesquicentennial over the next several months. Myriad events have been planned leading up to the actual anniversary, including a week-long celebration that will kick off with a special Homecoming parade in downtown Mankato on September 29, 2018, and culminate with a party on campus on Saturday, October 6. For more information about the sesquicentennial celebrations, please visit www.mnsu.edu/150/.
