COGNITIVE SCIENCE

Cognitive Science is an interdisciplinary inquiry concerned with understanding the nature and development of such intelligent capacities as perception, language, reasoning, learning, and problem-solving realized in biological or artificial systems. Such inquiry is by its very nature interdisciplinary, integrating methodological, theoretical, and practical foci of Biology, Computer Science, Philosophy, and Psychology into a single course of study.

PROGRAMS

DEGREES AND CERTIFICATES

- Bachelor of Science in Cognitive Science, Biology
- Bachelor of Science in Cognitive Science, Computer Science
- Bachelor of Science, Cognitive Science, Philosophy
- Bachelor of Science in Cognitive Science, Psychology

ABOUT THE PROGRAM

The structure of the major ensures students have a solid grounding in each of the four disciplines as well as a specific concentration in one area that draws on the interdisciplinary foundation. Graduates of the program will be prepared for a variety of post-baccalaureate options.
